# About Us

Pepperton Farms principals Roger and Dianne Trewick developed the Pepperton Poll Dorset Stud in 1994, and began breeding White Suffolks in 2004.

Roger is a fifth-generation farmer, since his family settled the Elmore property in 1864. His father started Wharoonah Dorset Horn Stud in 1943.

In 2020, their son Kurtis and his partner Tara joined Pepperton Farms as the next generation in this farming enterprise. They have been learning the ropes and bringing new ideas to the table, each having extensive careers within the Defence Force and Teaching.

In 1999 after realising its potential to maximise genetic gain, Pepperton started using artificial insemination to join all ewes. Since then and in order to remain competitive within the industry, they maintain a persistent effort to adapt their methodologies as technology and breeding research has evolved.

The heavy focus on genetics has been instrumental in producing rams with traits the market is demanding; such as high-muscling, fast growth and low-moderate birth weight among others. In recent years, Pepperton has made advancements towards improving lean meat yield, positive fat, IMF (marbling) and shearforce (tenderness) attributes.

Pepperton is currently running 1200 sheep with 450 breeding ewes, which are divided between Autumn and Spring lambings. All sheep are paddock-reared on lucerne and pasture, with some hay. We do not grain feed the animals.

All progeny are tagged, weighed and recorded at birth then weighed again at 100 days at weaning. At 200 days all lambs are again weighed and ultrasound scanned by an accredited Sheep Genetics scanner for fat depth and muscle. Once these figures are returned from Sheep Genetics, the top-index ram lambs from each of the sires used in the AI program are DNA tested for intramuscular fat, shearforce, lean meat yield and dressing percentage resulting in excellent lamb eating quality indexes.

# Information

## Our Breeding Program

At Pepperton, we concentrate on producing terminal sires and breeding ewes that have well-balanced indexes.

We aim to produce premium lambs with moderate birth weight, positive fat and high growth to allow for earlier marketing with improved lean meat yield and dressing percentages.

To achieve this, we select from a wide range of the highest quality sires and dams to use in our AI programs. Our rams are among the best in the breeds and are renowned for achieving outstanding results across all indexes.

Rams offered at this sale have excellent visual characteristics and are individually verified as being structurally sound and in good health.

## Rams available

We have 240 rams available, with the top 100 rams with the highest indexes to be presented at our Annual Sale on the 18<sup>th</sup> October 2023. The remaining rams will later be available for private sale. Free delivery to NSW, VIC and SA.

Semen collected from Sale Rams prior to the sale can be sold by Pepperton at any time.

**If selecting rams for stud purposes, please note not all rams are able to be registered with the APDA.**

## Rams Health Status

MN2 Approved Vaccinated for  
Ovine Johnes Disease  
Certificate No. VS1262

Ovine Brucellosis Accredited free  
Certificate No. 2241

Vaccinated with Gudair, Eryvac x2  
and Glanvac B12 at marking.

Drenched with Triguard

All rams were shorn in August

# Gundagai Meat Processors (GMP)

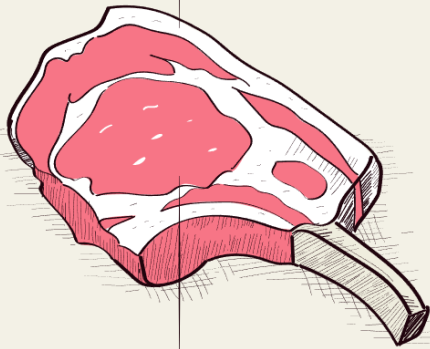

Gundagai Meat Processors are a state-of-the-art processing facility that use DEXA x-rays to provide cutting edge data on lean meat yields, fat and bone percentages, which enables a more detailed analysis of the animal carcass compared to traditional methods.

From early 2022, we have been sending our lambs to GMP to take advantage of this technology with the results used to validate the intended outcomes of our breeding program. From the detailed statistical breakdown of the carcass assessments, we can see whether our choice of rams was providing us with premium quality lambs that are highly desirable in today's consumer market.

In recent years, we have sent over 300 lambs to GMP for assessment. The analysis and feedback that we have received from GMP has provided us confidence that the rams we are breeding are capable of producing lambs with excellent eating qualities that the consumer market is now demanding.

DELICIOUS MARBLING

Cut of meat from the lambs we sent to GMP on 6<sup>th</sup> June 2023. Note the similarities to the desirable GLQ SCORE 5+ cut

# Lambplan ASBVs

**BWT** – ‘birth weight’ describes the genetic merit for weight at birth.

**WWT** – ‘Wean Weight’ (100 days)

**PWWT** – ‘Post Wean weight’ (200 days)

**WWT and PWWT** – describes the genetic merit for growth rate.  
A + ASBV means the animal is genetically faster growing.

**PFAT** – ‘Post Weaning fat’ describes the value of genes for fat depth, at constant weight a – ASBV means a genetically leaner animal.

**PEMD** – ‘Post Weaning muscle’ describes the value of genes for eye muscle depth a + ASBV means genetically more meat i.e. (potentially better yield).

**LMY** – ‘Lean Meat Yield’ Rams with more positive lean meat yield (LMY) ASBVs produce lambs that have a higher lean meat yield percentage at slaughter. Lean meat yield is expressed as a percentage of the Hot Standard Carcase Weight, where all bone and salvage fat is removed. A ram with an ASBV of 2.4 will produce progeny that are 1.2 percent higher than progeny of a ram with an ASBV of 0.

**IMF (marbling)** – ‘intramuscular fat’ is a measure of the chemical fat percentage in the loin muscle of a lamb and is often referred to as marbling. IMF has been shown to have a significant impact on the flavour, juiciness, tenderness and overall liking of lamb. Rams with more positive IMF ASBVs produce progeny with more intramuscular fat.

**SHEARF (tenderness)** – ‘shear force’ is a measure of the force or energy required to cut through the loin muscle of lamb after 5 days of ageing, the ASBV is reported in deviations of kilograms of force. Rams with more negative SF5 ASBVs produce lambs with more tender meat.

**LEQ** – ‘Lamb Eating Quality’ The LEQ index targets improvement of terminal sire performance in prime lamb production systems where internal parasites may cause economic losses. • LEQ balances large improvements in eating quality with modest increases in lean meat yield, and includes emphasis on worm egg count ASBVs. • Genotyping young rams makes LEQ more effective by improving the accuracy of carcass and eating quality ASBVs.

**TCP** – ‘Terminal Carcase Production’ includes increasing PWWT, PEMD, dressing %, lean meat yield and eating quality (LEQ) while decreasing carcass fat.

# About the 2022 Drop

In the 2022 drop we have 240 rams, the top 100 rams with the highest indexes are being presented in our annual sale on the 18<sup>th</sup> October, 2023.

The tables below and graphs on the following pages indicate how the ASBVs of our rams compare against the breed and the analysis (target trend) from sheep genetics. The graphs illustrate the improvements we have achieved in our flock over the past 10 years in response to the evolving customer demand.

**Note:** ASBVs are a prediction of an animal's genetic merit for a particular trait and are an indication of how an animal's progeny will perform based on the genes they will pass on. A wise purchaser should consider these along with an assessment of the ram's physical appearance.

# Percentile Bands

Within the catalogue, we have marked many attributes with the colours:

**yellow, pink, blue green**

These colours are indicative of how that ram is ranked in comparison to the rest of the breed nation-wide. **Yellow** indicates that the ram has figures in the top 1%, **pink** is in the top 5%, **blue** in the top 10% and **green** in the top 20%. Figures in the catalogue are correct as of 15 August 2023.

As an example, see below the ranked attributes for **Lot 1 – 220296**.

## Lot 1 – 220296

# POLL DORSET SALE RAMS

## Lot 1 – 220296

Sire: 1622882016160625 | Dam: 1640732019190047 | Birth Type: Twin | D.O.B: 11-August

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.40	11.03	17.06	3.39	-0.11	3.37	0.17	-2.17	169.11	167.30

A young ram with excellent growth and medium birth weight. He is in top 5% for his intramuscular fat and shearforce and Top 1% for TCP and LEQ. His stance is correct with good structure all-round, with clean face and points. Twin to Lot 15.

Purchaser:.....\$.....

## Lot 2 – 220240

Sire: 1603672020200286 | Dam: 1640732019190203 | Birth Type: Twin | D.O.B: 22-April

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.52	10.41	16.76	3.66	-0.15	3.82	-0.28	-1.19	164.96	165.55

A strong clean faced correct ram and twin to Lot 3. He has excellent eating qualities in the top 1% for LEQ and TCP, and the top 5% for muscle.

Purchaser:.....\$.....

## Lot 3 – 220241

Sire: 1603672020200286 | Dam: 1640732019190203 | Birth Type: Twin | D.O.B: 22-April

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.43	10.77	17.34	4.31	0.21	3.98	-0.06	-1.32	171.72	171.05

Our top-figured ram with exceptionally high LEQ and TCP among the best in the country. In the top 1% for muscle combined with positive fat and growth, he has great eating qualities matched with an impressive physique. Twin to Lot 2.

Purchaser:.....\$.....

## Lot 4 – 220336

Sire: 1640732021210301 | Dam: 1640732021210003 | Birth Type: Single | D.O.B: 27-August

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.36	11.38	17.27	5.21	-0.16	5.38	-0.57	3.32	160.70	167.98

This young ram has a well-proportioned body and neck extension, with a straight back and fantastic posture. Exceptionally high muscling puts him in the top 1% of all Poll Dorsets in the country and contributes to a lean meat yield in the top 5%. He has a low-moderate birth weight and excellent growth making him suitable for the sucker market producer. A real standout animal.

Purchaser:.....\$.....

**Lot 5 – 220204****Sire:** 1640732018180339 | **Dam:** 1640732020200088 | **Birth Type:** Single | **D.O.B:** 18-April

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.28	12.48	19.00	3.40	-1.08	5.51	-0.26	3.37	165.13	169.31

This ram has fantastic wean weights and growth in the top 5%, for buyers looking to send suckers to market fast. His lean meat yield, LEQ and TCP qualities are in the top 1%. We liked him so much, he has been joined to 2022 ewes with impressive lambs on the ground.

Purchaser:.....\$.....

**Lot 6 – 220231****Sire:** 1640732020200113 | **Dam:** 1640732019190083 | **Birth Type:** Twin | **D.O.B:** 20-April

0.54	11.19	17.76	3.14	-0.71	4.42	-0.20	-0.17	161.10	164.06

This is a solid and well-built ram with impressive figures across the board and triplet to Lot 21. His wean weight, muscling, lean meat yield and shearforce are all in the top 20%, with TCP in the top 1%.

Purchaser:.....\$.....

**Lot 12 – 220357**

**Sire:** 1640732021210301 | **Dam:** 1640732021211017 | **Birth Type:** Twin | **D.O.B:** 4-September

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.59	12.42	18.58	3.44	-0.47	4.79	-0.48	1.98	157.47	163.81

This is a lovely correct and clean faced ram with good posture and straight lines. Don't let his smaller stature fool you, he is a younger ram than most but boasts impressive figures and is in the top 1% for TCP and 5% for LEQ. With his high wean weight, growth and muscling, he would be ideal for producing suckers for early market. Twin to Lot 30.

Purchaser:.....\$.....

**Lot 13 – 220205**

**Sire:** 1640732020200179 | **Dam:** 1640732020200085 | **Birth Type:** Single | **D.O.B:** 18-April

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.27	11.42	16.30	3.39	-1.42	5.89	-0.62	3.99	156.46	163.80

A big ram with impressive stature. He has low birth weight which would be ideal for maidens, and high weaning weight with excellent lean meat yield and TCP in the top 1% from which you could expect to produce fast maturing suckers for market. He has great muscling in the top 10% and eating qualities in the top 5%. Overall a very impressive ram.

Purchaser:.....\$.....

**Lot 14 – 220321**

**Sire:** 1640732021210301 | **Dam:** 1640732021210044 | **Birth Type:** Single | **D.O.B:** 20-August

0.39	9.45	14.91	3.96	0.06	3.46	-0.10	0.05	154.80	156.75

A solid ram with great structure. His good figures all round especially his muscling and positive fat see make the top 10% for LEQ and TCP. He is suitable for joining to firstcross ewes in particular.

Purchaser:.....\$.....

**Lot 48 – 220327**

**Sire:** 1640732021210107 | **Dam:** 1640732017170088 | **Birth Type:** Single | **D.O.B:** 22-August

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.29	10.26	15.94	3.14	-1.32	5.43	-0.75	3.78	147.55	156.67

A large animal with a confident swagger in his step. He has great muscling producing lots of lean meat yield for lambs over the hooks. His very low birth weight is indicative of his lineage of PEPPER TON 180339 - a well-known sire within the breed for his extreme muscling and low birth weight, making this ram suitable for maidens in particular.

Purchaser:.....\$.....

**Lot 49 – 220331**

**Sire:** 1640732021210107 | **Dam:** 1640732021210064 | **Birth Type:** Trip | **D.O.B:** 26-August

# White Suffolk Sale Rams

## Lot 51 – 220642

Sire: 2300992020200997 | Dam: 2305652020200702 | Birth Type: Single | D.O.B: 21-April

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.50	12.54	20.35	3.80	0.25	4.30	-0.29	-1.35	166.59	168.95

What a cracking ram to start the list with; fantastic figures right across the board! Top 1% post weaning weight, LEQ and TCP! Top 5% for shearforce, muscle and weaning weight, but don't forget his positive fat and lean meat yield! A truly excellent ram that will get the job done!

Purchaser:.....\$.....

## Lot 52 – 220763

Sire: 2305652020200534 | Dam: 2305652021210445 | Birth Type: Twin | D.O.B: 2-September

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.38	11.36	17.60	3.80	-0.66	5.03	-0.36	0.66	166.63	167.61

A beautiful bare-bellied ram will be a shearer's delight! Built strong and of sound structure, he has impressive figures across the board, being in the top 1% for LEQ and TCP. Top 5% for muscle and lean meat yield and with fast growth, his lambs will be in the sucker market early.

Purchaser:.....\$.....

## Lot 53 – 220709

Sire: 2305652020200505 | Dam: 2305652018180507 | Birth Type: Twin | D.O.B: 9-August

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.12	10.76	16.94	4.11	-0.46	4.78	-0.19	1.13	170.12	170.07

Don't let his fine appearance fool you, this ram is oozing quality across all metrics. With the extra low birth weight with extreme muscle, this ram has one of the highest LEQ and TCP figures of the breed. We consider this to be one of the best rams on offer this sale.

Purchaser:.....\$.....

## Lot 54 – 220770

Sire: 2305652021210511 | Dam: 2305652021210441 | Birth Type: Twin | D.O.B: 5-September

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.20	12.65	19.08	3.97	-0.93	6.15	-0.64	3.55	162.80	168.70

Another outstanding ram with exceptional figures. Of note, his very low birth weight has combined with impressive growth and muscling to achieve a TCP and lean meat yield in the top 1%.

Purchaser:.....\$.....

**Lot 55 – 220610**

**Sire:** 2305652020200505 | **Dam:** 2305652020200730 | **Birth Type:** Single | **D.O.B:** 18-April

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.28	10.00	14.82	5.13	0.06	4.52	-0.24	-0.08	167.35	167.93

A ram with impressive stature and presence. His low birth weight, positive fat and extreme muscling in the top 1% combine to achieve a TCP and LEQ in the top 1% of the breed.

Purchaser:.....\$.....

**Lot 56 – 220733**

**Sire:** 2305652020200534 | **Dam:** 2305652021210407 | **Birth Type:** Single | **D.O.B:** 15-August

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.07	10.50	17.00	3.65	-0.31	4.01	-0.05	-1.28	169.54	166.55

Wow look at those legs! Starting from a low birth weight, his muscling in the top 5% and impressive growth has seen his post-weaning weight enter the top 20%. His LEQ and TCP are both incredibly good in the top 1%, and should leave no doubt of his potential to generate quality lambs.

Purchaser:.....\$.....

**Lot 57 – 220705**

**Sire:** 2300992020200667 | **Dam:** 2305652020200448 | **Birth Type:** Twin | **D.O.B:** 8-August

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.32	11.13	17.53	4.24	0.20	4.25	-0.31	-0.53	161.89	165.56

A well-built and muscled ram with scores of potential and loads of colour across his figures. He has positive fat and is in the top 1% for muscle and TCP, which gives us confidence this ram will have no trouble producing quality lambs.

Purchaser:.....\$.....

**Lot 58 – 220719**

**Sire:** 2300992017170986 | **Dam:** 2305652020200487 | **Birth Type:** Twin | **D.O.B:** 9-August

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.35	10.73	17.00	3.29	-0.28	3.79	0.20	-1.97	163.70	162.08

A good looking ram with well-rounded figures seeing his LEQ in the top 1% while IMF, shearforce and TCP follow closely in the top 5%.

Purchaser:.....\$.....

**Lot 59 – 220716**

**Sire:** 2300992020200667 | **Dam:** 2305652018180505 | **Birth Type:** Twin | **D.O.B:** 9-August

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.30	12.01	19.24	3.17	-0.25	4.34	-0.16	0.24	166.26	165.29

A long well-structured ram with a clean head and points. Exceptional ranking of LEQ and TCP in the top 1% of the breed, with wean weight and post weaning weight both in the top 5%. This ram is capable of producing fast growing suckers with great lean meat yields. Twin of Lot 68.

Purchaser:.....\$.....

**Lot 60 – 220758**

**Sire:** 2305652021210511 | **Dam:** 2305652021210436 | **Birth Type:** Single | **D.O.B:** 30-August

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.09	11.31	17.54	3.36	-0.45	4.60	-0.22	0.58	159.85	162.96

A good ram with near bare-belly and very clean lines. This ram has impressive muscling and lean meat yields and is in the top 1% for TCP and top 5% for LEQ. This is a very low birth weight ram perfect for your maiden ewes.

Purchaser:.....\$.....

**Lot 61 – 220621**

**Sire:** 2300992020200997 | **Dam:** 2305652020200418 | **Birth Type:** Twin | **D.O.B:** 19-April

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.46	11.91	18.59	4.06	-0.44	5.53	-0.79	3.16	155.30	163.86

A solid and well-built ram with great muscling, growth and exceptionally high lean meat yield in the top 1% - one of the highest for the sale. This ram will have no trouble producing lambs suitable for the early sucker market.

Purchaser:.....\$.....

**Lot 62 – 220623**

**Sire:** 2305652020200505 | **Dam:** 2305652019190599 | **Birth Type:** Twin | **D.O.B:** 19-April

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.04	11.11	16.38	4.05	0.19	4.01	-0.06	1.55	162.18	161.48

A big ram with very low birth weight, strong muscling and positive fat - the perfect combination for maiden ewes and quick growing lambs! A solid LEQ and TCP in the top 5% and strong figures throughout make this ram worthy of consideration.

Purchaser:.....\$.....

**Lot 63 – 220724**

**Sire:** 2300992020200667 | **Dam:** 2305652020200717 | **Birth Type:** Single | **D.O.B:** 10-August

0.12	9.47	15.52	4.72	0.44	3.69	-0.35	0.15	156.23	161.10

A solid ram with a low birthweight yet top 1% for muscle. His LEQ and TCP are in the top 5%, while he maintains a positive fat figure in the top 10%, making him an ideal match for merino ewes.

Purchaser:.....\$.....

**Lot 66 – 220611**

**Sire:** 2305652020200534 | **Dam:** 1640732018180099 | **Birth Type:** Twin | **D.O.B:** 18-April

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.39	11.19	17.80	3.00	-0.88	5.23	-0.70	3.15	155.32	160.58

A good looking ram with a long straight back and solid core. He has high growth with lean meat yield and TCP both in the top 5%.

Purchaser:.....\$.....

**Lot 67 – 220779**

**Sire:** 2305652021210511 | **Dam:** 2305652021210401 | **Birth Type:** Single | **D.O.B:** 12-September

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.12	11.04	16.09	3.97	0.20	4.08	-0.03	0.55	163.21	160.91

A good looking ram with clean points and minimal wool underneath. His LEQ is in the top 1% and TCP in the top 5%, which combined with his low birth weight and muscling in the top 5% make him an attractive choice for joining to merinos.

Purchaser:.....\$.....

**Lot 68 – 220717**

**Sire:** 2300992020200667 | **Dam:** 2305652018180505 | **Birth Type:** Twin | **D.O.B:** 9-August

BWT	WWT	PWWT	PEMD	PFAT	LMY	IMF	SHEARF	LEQ	TCP
0.23	10.14	16.49	3.50	0.10	3.60	-0.06	-0.54	159.21	160.47

Although a large structurally sound ram with plenty of height, he is one of the younger in the sale so will continue to grow. His low birth weight, good muscling and positive fat combine to produce a TCP and LEQ in the top 5%. He has a bare belly and clean face which is important for those seeking cleaner lambs.

Purchaser:.....\$.....

**Lot 69 – 220612**

**Sire:** 2300992020200997 | **Dam:** 2305652020200409 | **Birth Type:** Twin | **D.O.B:** 18-April
